January 2024. Digital.

**"Design cities for the people".**

February 2024. Digital.

Hello,

Thank you very much for making it this far. My name is Grillante (she/her) and I am a Spanish illustrator and comic author.

I work for editorial and publishers in Spain and I have a very noticeable style: simple lines, lots of color and different shapes. I love drawing lifestyle, women, everyday life, and always with a great sense of humour. I think you can illustrate everything in a funny and positive way.

If you are reading this, it is because I would like to work with you. I am always willing to face new projects and challenges. And I am a very easy going person that always meet the deadlines.

If you want to collaborate with me at any time, I will be glad to talk to you. Do not hesitate and contact me.

**THANK YOU!**
